CPYRGHT

"Our countryman Jozsef Kecskemethy, First Secretary of the American-Hungarian Reform Association, together with his wife, recently arrived in our homeland for a private visit. During his stay here, on 10 January, he will preach a service for the Budapest Congregation on Gorki Avenue. The occasion is made especially pleasant by the fact that the christening of the child of his son, who is in the diplomatic service in Budapest, will take place then. The grandfather will perform the christening service for his first grandson."
